

Amendments to the Claims

No amendments have been made. The following listing of claims is provided for the Examiner's convenience:

Listing of Claims:

1. (previously presented) A method of providing information regarding tradeshow exhibitors, comprising the steps of:

collecting the information from at least one exhibitor, said information comprising at least one member selected from the group consisting of:

information regarding at least one product of the at least one exhibitor; and

information regarding at least one service provided by the at least one exhibitor;

compiling the collected information into an electronic database;

distributing the database in an electronic medium to a tradeshow attendee.
2. (previously presented) The method of claim 1, wherein the database is a searchable database viewable via a computer program, and the electronic medium is a Compact Disk.
3. (original) The method of claim 2, wherein the step of collecting the information comprises uploading the information onto a web site.
4. (original) The method of claim 2, wherein the step of collecting the information comprises uploading the information onto a wireless network.
5. (original) The method of claim 3, wherein the computer program is integrated with the database.

6. (previously presented) The method of claim 3, further comprising the steps of:

providing a computer at the tradeshow; and

allowing the tradeshow attendee to view the information in the database on the computer.
7. (previously presented) The method of claim 6, wherein the information comprises the at least one exhibitor's product information, web site address, catalogue information, and the exhibitor's location at the tradeshow.
8. (previously presented) The method of claim 7, wherein the information is collected prior to the tradeshow and the database is distributed to the tradeshow attendee in a time frame selected from the group consisting of prior to the tradeshow, during the tradeshow, and after the tradeshow.
9. (previously presented) The method of claim 1, wherein the database is a searchable database viewable via a computer program, and the electronic medium is a PDA card.
10. (original) The method of claim 9, further comprising viewing the information on a PDA.
11. (previously presented) The method of claim 10, wherein the information is collected prior to the tradeshow and the database is distributed to the tradeshow attendee in a time frame selected from the group consisting of prior to the tradeshow, during the tradeshow, and after the tradeshow.
12. (previously presented) A method of providing information regarding tradeshow exhibitors, comprising the steps of:

collecting the information from at least one exhibitor, said information comprising at least one member selected from the group consisting of:

information regarding at least one product of the at least one exhibitor; and

information regarding at least one service provided by the at least one exhibitor;

compiling the collected information into an electronic database;

storing the database in a computer at the tradeshow; and

allowing a tradeshow attendee to the information on the computer.

13. (original) The method of claim 12, wherein the step of collecting the information comprises uploading the information onto a web site.
14. (previously presented) The method of claim 13, wherein the database is a searchable database viewable via a computer program, and the computer is located in a dedicated kiosk or booth at the tradeshow.
15. (previously presented) The method of claim 14, wherein the information is collected prior to the tradeshow and the database is distributed to the tradeshow attendee in a time frame selected from the group consisting of prior to the tradeshow, during the tradeshow, and after the tradeshow.
16. (original) The method of claim 12, wherein the computer is a PDA.
17. (original) The method of claim 12, wherein the computer is a wireless network.
18. (previously presented) A method of providing information regarding tradeshow exhibitors, comprising the steps of:

collecting the information from at least one exhibitor, said information comprising at least one member selected from the group consisting of:

information regarding at least one product of the at least one exhibitor; and

information regarding at least one service provided by the at least one exhibitor;

electronically compiling the collected information into a downloadable database; and

downloading the database onto an electronic medium for viewing by a tradeshow attendee.

19. (original) The method of claim 18, wherein the step of collecting the information comprises uploading the information onto a web site.
20. (previously presented) The method of claim 19 wherein the electronic medium is selected from the Group consisting of personal computers, notebook computers, personal digital assistants, palmtop computers, and wireless network.
21. (previously presented) The method of claim 20, wherein the database is a searchable database viewable via a computer program and accessible via the Internet.
22. (original) The method of claim 21, wherein the electronic medium is located at the tradeshow.
